Toxic Shame Chart

by Rebecca Baldwin
\$15.00

A4 Laminated, Doublesided Desk Chart

While shame has a constructive use for us as human beings, toxic shame is shame that is internalised in such a way that it mistakenly becomes our primary identity.

This chart provides the framework and language to use to help clients explore the different aspects of their shame, and to explore any deeply embedded shame collages. It covers:

- Definitions of Shame and Toxic Shame
- The Shame Spectrum and Paradigms of Shame
- Dynamics and Syndromes of Shame

This chart makes a great addition to your kinesiology, or other, tool kit.

Toxic shame is one of the sources of long-term survival stress. It will continue to sabotage our lives until we are able to release and resolve it. Like most aspects of ourselves, until we are able to uncover it and become aware of it, it can remain out of our reach.

Principles of Kinesiology: Muscle, Chakra, Organ Relationship

The remainder of the text (over 100 pages) lays out each organ listed in the table, page by page, with all other information about the organ and the related muscles including function, meridians, reflexes, nerve supply and chakra information. All this information is supplied with the necessary diagrams and illustrations. The Muscle Chakra Organ Relationship manual covers many aspects not found in other publications.

Hands-on muscle-testing exercises to unblock receiving and manifesting

The first known book of kinesiology experiments-exercises for self-healers. Your Success Profile is

seven points to measure-outline the strength-depth of your two Games of Success, in five minutes or less. Use it to pin-point and address your weakest link with your Energy Medicine method of choice. Bruce Lipton 101 says each cell has not one cell wall, but two. One faces in; the other faces out. DNA is not the brain of our cells. It's our inner and outer-facing cell walls, taken together. Success begins not in your mind but in the dual-perspective of your cell-level-intelligence, your outer- and inner-facing cell walls. That's the micro-reality; the macro level is...

Given kinesiology testing, the invisible nature of unresolved disturbances, is no longer a big obstacle for those willing to learn and practice self-testing. Self-muscle-testing/dowsing/kinesiology converged with NLP, used in an ecumenical spiritual context, constitutes the first reliable experimental method for uncovering invisible disturbances. Keep in mind Energy Medicine methods are reliable primarily in the domain of only one person, no problem for self-healing.

Access and clear your own blocks and obstacles to abundance..

Map of Consciousness Explained

by David R. Hawkins \$27.00

A Remarkable Book !

The Map of Consciousness Explained is an essential primer on the late Dr. David R. Hawkins's

teachings on human consciousness and their associated energy fields.

Using muscle testing, Dr. Hawkins conducted more than 250,000 calibrations during 20 years of research to define a range of values, attitudes, and emotions that correspond to levels of consciousness. This range of values-along with a logarithmic scale of 1 to 1,000-became the Map of Consciousness, which Dr. Hawkins first wrote about in his New York Times bestseller, Power vs. Force (1995).
